Introduction

The CATIC integration with SoftPro 360 will allow you to seamlessly order CATIC Closing Protection Letters (CPLs) within ProForm. SoftPro 360 will be able to create a CATIC file corresponding to information in your ProForm order and enable you to order CPLs through CATIC. Additionally, you'll be able to void a CPL. All of this can be done without having to leave your SoftPro workspace, helping to facilitate a more efficient workflow by reducing or eliminating the duplication of data.

Accessing

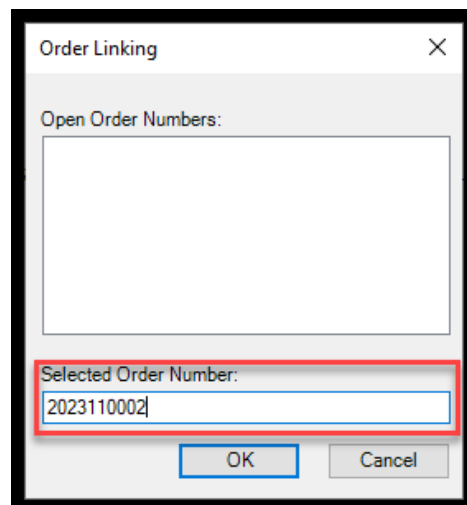

From the ProForm toolbar:

1. Select the Services tab
2. Click the Underwriter Services folder to expand
3. Double-click **CATIC – Jacket/CPL/Title Services**

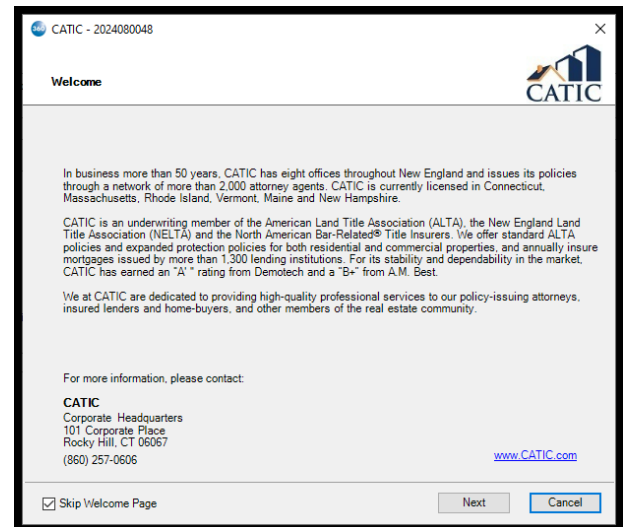

Select a ProForm Order

Each transaction must be linked to a ProForm Order. If you already have a ProForm order(s) open, the Active order will be automatically linked. If you do not have an active order open, you can enter the order number in the Selected Order Number field. Once you have confirmed the order, click OK.

Logging into CATIC

The Welcome Screen provides information about CATIC Title. By Clicking on the **'Skip Welcome Page'** check box, it will allow you to bypass the Welcome screen when launched in future sessions. Click the **Next** button to continue.
