## What is Closing Insight™

Closing Insight™, a suite of Web-based technology and workflow solutions was developed by RealEC® Technologies in collaboration with several top lenders, title underwriters and settlement agents to automate the numerous multi-party processes that are required to close a loan.

This Web-based solution delivers a number of process improvements and quality controls to help lenders aggregate fees, generate disclosure documents and reconcile loan estimate data, while helping to ensure process consistency every time. Closing Insight supports the closing process by helping lenders gather loan fee information, collaborate with settlement agents, deliver secure documents within mandated timelines and validate pre-funding and post-closing data.

Closing Insight will help lenders and their business partners satisfy their obligations with CFPB's TILA-RESPA Integrated Disclosure rule.

### Establish Your Security Questions.

You must establish 6 Security Questions.

This will not only add an extra level of security, but will allow you to reset your own password, should you ever forget it!

RealEC uses security questions as an extra level of security. Select six unique questions and answer combinations that can be used to verify your identity.

#### To add a question:

- Enter your NEW permanent password
- Click on the **Add More** link – you will get a pop-up
- Click on the drop down to select a question
- Enter your answer in the 2<sup>nd</sup> field
- Click *Add*

**Note:** The pop-up will remain on the screen, but after you click *Add* you'll see the questions start populating in the background. See example:

When you see 6 questions listed in the background, click *Cancel*. This will cancel you out of the pop-up & allow you to see the questions listed. Enter your new permanent password (if still needed) & click *Submit* when you are done.
