Summary of Changes

Closing Disclosure Support

- The application now supports the complete Closing Disclosure form (CDF) as required by the Real Estate Settlement Procedures Act (Regulation X) & the Truth in Lending Act (Regulation Z) [final rule](#), effective 8/1/2015.
- When creating a new order, the user will be prompted to choose a settlement type: HUD, GFE HUD, or CDF. A dedicated CDF tab will appear in the order if CDF is selected. HUD-1 orders will display the same HUD-1 & Closing tab as in prior versions. The new CDF data entry screens appear only in CDF orders.
- The Default ReadyDocs tree has been updated with all versions of the CDF as well as settlement statements and other supporting documents. These documents are found under the Escrow & Closing folder. The current HUD-1 documents are still available and have not changed.
- Pending receipts & disbursements will continue to be generated from the CDF just as it does from the HUD-1.
- The Title Insurance Premiums screen has new options for calculating simultaneous issue premiums as required by the final rule.
- Fees sent from title screens will automatically add the text “Title –” as required by the final rule. You do not need to update templates or lookup table entries to support this.
- Fees will automatically sort alphabetically on CDF Page 2 when you leave and then return to that page the order.

Configuration Requirements

Several configuration changes are recommended prior to 8/1/15:

- Create new templates for CDF orders. You can copy existing HUD templates into new CDF templates, which will populate all user-entered, non-HUD data from the original template. Users can also apply HUD templates directly into CDF orders, which will bring over all user-entered, non-HUD data. In your CDF templates, set the Title – CDF section defaults on the Options screen; this is recommended over alternate methods such as including CDF lines in title lookup tables.
- Set the Full Loan Premium rate table in your lookup table(s) for simultaneous issue policies.
- Ensure that custom documents and reports that reflect HUD data are updated, if appropriate, for CDF orders.
- Add License ID/NMLS License ID fields and data to the contact lookup tables for lenders, mortgage brokers, loan servicers, real estate brokers, settlement agents, title companies, and underwriters, along with their contact people. This data is displayed on page 5 of the CDF.
- Update custom document trees if you would prefer to print CDFs and settlement statements from your custom tree rather than the SoftPro default tree.
- On or around 8/1/15, change the Default settlement type found in **Tools > Preferences > Miscellaneous preferences to CDF**.
- If these configuration changes are not made prior to 8/1/15, the CDF can still be produced for any order but will require additional manual data entry.
- No configuration changes are required for recording fees, transfer taxes, endorsements, or additional title charges.

System Requirements

- The minimum supported screen resolution is 1024x768. Visit softprocorp.com for full system requirements.

Closing Disclosure Form

Creating a New Order or Template

CDF Tab

- **Final:** All fields in this column are explained in the [Lines](#) section below.

Line Detail Dialogs

After clicking a hyperlinked line number in the **CDF Page 3** grid, a **Line Detail Dialog** will appear. These dialogs allow you to enter additional details regarding a charge (ex. Credit/Debit, Tolerance, Fee Type, etc.), multiple charges that will total on the main line on **CDF Page 3**, and choose additional calculation charge types to automatically calculate the charge amount.

The screenshot shows the 'Line Detail (2015030012.PFD)' dialog box. The title bar indicates the file name. The main heading is 'K. Due from Borrower at Closing' followed by 'Charges for Line 04'. Below this are two buttons, '+' and '-'. A table with columns 'Description', 'Re', 'DS', and 'Borrower' is shown, with the first row containing '01'. Below the table are several input fields: 'Desc:', 'Re:', 'DS:' (a dropdown), 'To:', 'Borrower:', 'Address:', 'Process As:' (a dropdown), 'Calculation Type:' (a dropdown set to 'Basic'), 'Details...' - The two headings at the top of the dialog identify the **Section** and **Line number** for the charge currently displayed.
- The **grid** found in the top portion of the dialog lists and provides a summary of the charges present on the line being edited; **details cannot be entered into this grid**. Click on a grid row to edit the charge.
 - **Additional charges** may be **added** or **deleted** by pressing the buttons **+** **-** found in the upper left.
- The bottom portion of the dialog contains various fields and drop-down lists for configuring line charges.

To the right of these input fields is a large, empty rectangular area, likely for a stamp or additional notes.

Other Changes

In addition to five pages/screens that have been added with the Closing Disclosure Form (CDF), the new requirements have affected several other areas of the application.

Utilities

- **ProForm API:** Updated to create and edit CDF files.
- **Data Collector:** Support has been added for CDF fields.

ProDesign

- Support has been added for CDF fields.

ProForm

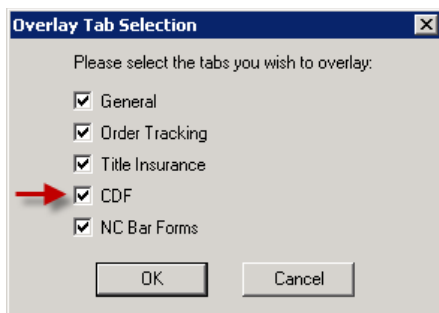

NEW ORDER

The CDF order type has been added to the **New File/Template** dialog:

OVERLAY TAB SELECTION

A CDF option has been added to the Overlay Tab Selection dialog:

READYDOCS

The ReadyDoc Tree will remain organized as it has been. The only changes made with the CDF release:

- The **HUD-1 & Closing** folder has been renamed to **Escrow & Closing**.
- A **CDF Documents** folder has been added.

DESCRIPTION FIELDS

A new description field has been added to:

- **Title Insurance Premiums** for the **owner's policy, owner's additional fee, loan policy, & loan policy additional fee.**
- **Additional title charges**
- **Endorsements**

This field is needed because CDF requirements specify that the prefix **Title** – be added to all title related charges, and that the verbiage **(optional)** be added at the end of the Owner's title insurance premium. Two examples:

- **Title Insurance Premium:**

- **Endorsement:**

CDF LINE DROP-DOWN LISTS & "SENDING" CHANGES

CDF Line drop-downs have been added to **every location in the application that a HUD-1 dropdown was located**. **NOTE:** In a couple of areas, a checkbox has been added which works to "send" monies like these lists. Affected screens include:

- Taxes (City, County, Assessments)
- Sales Price, Deposit/Earnest Money
- Increased/Additional Deposits
- Loan, Funding and ProTrust
- Terms, Payment & ARM
- Builder, Contract, & Escrow for Completion
- HOA/Management Company Fees and Dues
- Security Instruments, Trustee & Riders > Modification (Include on CDF **L.03**):
- Property, Legal Description > Household Appliances, Fixtures, etc (**K.02**):
- Requested track items
- Commissions
- Seller Proceeds

These drop-downs allow the user to send data to a specific **CDF line**. An ellipse button  is located next to each drop-down so that the user may view a charge's details and make adjustments as necessary. This example shows two types of line drop-downs:

- **Editable:** The **Purchase Money/Seller Financing** amount may be sent to any non-reserved line in **Section L** by using the drop-down.
- **Reserved:** The **Deposit/Earnest Money** amount has a **reserved line (Page 3, L.01)** which may not be altered.

CDF LINE DROP-DOWN TIPS

- **Sending money to the CDF** may be done by selecting a **specific line**, or with the **Next Available Line** option:

- **Money sent to CDF Page 2 may move to a different line** than the one selected by the user. This is because CDF regulations require that the [lines on Page 2 sort automatically](#) by description.
 - For example, the item titled **123 Pest Control** was manually sent to line **H.04**, but after adding the other five items (**A, a, B, b, C**) and leaving Page 2, the six charges were alphabetized:

H. Other		\$ 1,160.00				
	Description	Re	DS	To	Borrower - Paid At Closing	Borrower Before C
01	123 Pest Control		5		\$400.00	
02	A Item		5		\$100.00	
03	a Item		5		\$23.00	
04	B Item		5		\$55.00	
05	b Item		5		\$62.00	
06	C Item		5		\$520.00	
07						

- **The exception to this sorting requirement** would be **non-restricted transactions**, such as commercial transactions, home equity lines of credit, reverse mortgages, etc. In these situations, the user may manually turn off sorting by using the [options screen](#).
- A number of areas in the order allow for money to be sent to the same destination line on the CDF; in other words, they may be **grouped** on the same line. This is very useful with items such as title charges and endorsements.
 - **Some lines on CDF Page 2 may not contain more than one charge** per line. See [Section A-J](#) above for details on which lines are restricted to one charge per row.
 - **Some lines on CDF Page 3 may not contain more than one charge** per line. See [above](#) for details.

- When the template is overlaid it will trigger the **Next available line** functionality.
- The user can hard-code a specific line in the line drop-down, but this is **NOT** advised. Users should always use **Section.xx** so that items don't accidentally become grouped on a line with charges already in the order.

- **Orders:** An order may have **Section.xx** in a line drop-down, but the amount **MUST** be zero (\$0.00):

- When the order is overlaid, the **Section.xx** will overlays.
 - **Once an amount is input**, it will trigger the **Next available line** functionality.
 - The user can hard-code a specific line in the line drop-down, but this is **NOT** advised. Users should always use **Section.xx** so that items don't accidentally become grouped on a line with charges already in the order.
- **Lookups:** The rules for lookups follow the two bullets above for templates and orders.
 - **Template:** The user may add template lookup entries with an **Amount AND Section.xx**.
 - **Orders:** The user may add order lookup entries with **Section.xx** if the corresponding amount is zero.
 - If an entry in a lookup table has a section set in the CDF Line drop-down field (i.e. - **H.xx**), the next available line in that section will be chosen when the entry is retrieved from the lookup table.

TERMS, PAYMENT & ARM:

Several CDF-related changes have been made to **Terms & Payment Information** and **Interim Interest**.

1. The **TIL – buttons** do not apply to a CDF order and no longer appear in the upper right corner of this screen; only the **Arm Data** button remains.
2. The **Number of Payments per Year** dropdown has been changed to **Payment Frequency**, it now lists the following items (corresponding numbers are listed in parentheses: Weekly (52), Bi-Weekly (26), Semi-Monthly (6), Monthly (12), Quarterly (4), Semi-Annually (2), and Annually (1).
 - Changing **Payment frequency** changes the **Total Number of Payments** field. For example, the default is **Monthly** and **360** Payments:

RECORDING & TRANSFER FEE FORMULAS

This window is not new to ProForm, but has been modified for use with the CDF to calculate deed, mortgage, release, and other document fees and tax/stamps. The table has ten columns of information; each formula is entered on a separate row:

15) Recording & Transfer Fee Formulas (2015030004.PFD)												
		Per	First	\$-Cost	Next	At	Next	At	RemainAt	Basis	Loan	Round
Recording	Deed	Page	1	6.00					2.00

	Mortgage											
Other Tax Stamps (1)	Deed											
	Mortgage											
Other Tax Stamps (2)	Deed											
	Mortgage											
Default Payee		Default Payee (to): {{County}} County Register of Deeds										

- The **first two columns** describe the
 - Section:** Recording, City/County Tax Stamps, State Tax Stamps, and Other Tax Stamps 1 & 2.
 - Document type:** Deed, Mortgage, Release, and Other.
- The **Per** column explains the unit of measurement that the formula is based upon (i.e.-document cost per page).
- The remaining columns contain the formula.

Formula Input: Most recording fee formulas contain a rate schedule based on the number of pages.

- Per:** unit of measurement that the formula is based upon (i.e.-document cost per page, etc.).
- First:** number of pages to which the first rate applies in the **First column**.
- \$-Cost column:** total cost for the first pages.
- Next:** number of pages to which the next rate applies.
- At:** cost per page which applies to the next.
- Next/At:** a second set of **Next** and **At** columns are included for another rate level, if applicable.
- RemainAt:** cost per page for any pages over the number covered by the formula.

Basis: The transfer charges for these sections are calculated using the figure specified in the **Basis** field. For deeds, the Basis field defaults to code S (sales price). For mortgages, the Basis field defaults to L (loan amount). Enter a code into the Basis field which represents the figure on which you want to base the calculation of the tax/stamps. Or, select a code from the Basis drop-down list.

Loan: Select the loan to which the formula should apply.

Round: Use this field to either round up or chop the basis amount used in the calculation of the tax/stamp amount. Select **U** for round up or **C** for chop.

Default Payee: Enter the name of the payee for this item.

- An entry such as {{county}} County Recorder's Office may be appropriate for this field. This will pull in the county name followed by County Recorder's Office.

CDF Options

The Options screen has been updated to accommodate CDF orders. The new and updated options are:

CALCULATION OPTIONS

- **Use optional Closing Disclosure forms for transactions not involving seller:** Select this option to use the optional CDF Page 3 screen which shows **Section K. Payoffs and Payments grid** and the optional Calculating Cash to Close table. This option is typically used with refinance transactions.
- **Sort CDF page 2 lines descriptions alphabetically:** Uncheck this option to disable the automatic sorting of CDF Page 2 lines.
- **Print POC codes:** Defaults checked. Causes the POC (paid outside of closing) codes to print on the CDF; works the same as a HUD-1 order.
- **Use Buyer/Seller Split Feature:** For calculated or sent over amounts on a CDF Page 2 charge, the Use buyer/seller split feature will force a balance only between Borrower-Paid At Closing with Seller-Paid At Closing, and Borrower-Paid Before Closing with Seller-Paid Before Closing. It will not force balance Paid at Closing with Paid Before Closing or Paid by Others.

TITLE – CDF SECTION DEFAULTS

This set of drop-down lists provides the user with a central location from which they may set CDF line defaults for title fees. These can be adjusted easily and will affect all fees without needing to go to each fee individually. **Note:** It is **strongly recommended** that CDF line defaults be set with these options.

- **Owner's policy:** Owner's policies & owner's policy endorsements reference this option to determine which section to default their CDF Line to.
 - If this option is changed, calculated CDF Line dropdowns will **default to the next available line in the newly selected section**, but **user-entered** CDF Line dropdowns will remain the same, whether or not they were manually selected or populated from a lookup table.
 - **Options:** Section B - Services Borrower Did Not Shop For, Section C - Services Borrower Did Shop For, and Section H - Other Costs.
- **All other title fees:** Loan Policies, Loan Policy Endorsements, Other Policy, Commitment Endorsements, and Additional Title Charges reference this option to determine which section to default their CDF Line to.
 - If this option is changed, calculated CDF Line dropdowns will **default to the next available line in the newly selected section**, but **user-entered** CDF Line dropdowns will remain the same, whether or not they were manually selected or populated from a lookup table.

- **Options:** Section B - Services Borrower Did Not Shop For, Section C - Services Borrower Did Shop For, and Section H - Other Costs.
- **Group endorsements:** It is strongly recommended that users control selecting the CDF line via these options. If endorsements need to be grouped differently than the three options here, the user must do this manually by selecting the **same line in the CDF Line dropdowns for endorsement that need to be grouped together**; this will group them on CDF Page 2.
 - **None:** Choose this default option if you want each endorsement to be itemized. The CDF Line for each Endorsement will default to the next available line in the same section as the parent policy. When selected:
 - **Loan Policy Endorsements:** Will be sent to the same CDF that the parent policy is being sent to.
 - If the parent policy is not being sent to the CDF, then the section selected will be the one selected in the “All other title fees” dropdown, and
 - The CDF selected will be the one associated to the Loan tied to the parent policy.
 - **Owners Policy Endorsements:** Will be sent to the same CDF that the parent policy is being sent to.
 - If the parent policy is not being sent to the CDF, then the section selected will be the one selected in the “Owner’s policies” dropdown, and
 - The CDF selected will be the first CDF.
 - **Commitment Endorsements:** will be sent to the section selected in the “All other title fees” dropdown, and to the first CDF.
 - **Same Line As Parent Policy:** Choose this default option if you want endorsements to be grouped on the same CDF line as its parent policy. When selected,
 - **Loan & Owner’s Policy Endorsements** default the CDF Line to the same line selected on the parent policy.
 - **Commitment Endorsements** default the CDF Line to the next available line in the **All other title fees** section on the first CDF. Endorsements on the same commitment will be sent to the same line.
 - **Endorsements will not default** a CDF Line until the parent policy has a CDF Line.
 - **Separate Line From Parent Policy:** Choose this default option if you want endorsements associated to the same policy type to be grouped together in the same CDF section as the policy. When selected,
 - **All Endorsements belonging to the same title product will be grouped on the next available line in the appropriate section.** For example, all endorsements for the first Loan Policy will be grouped together on the same CDF line in the same section that contains the first Loan Policy.
 - **The CDF and the section will be determined** for each product (Loan Policy, Owner’s Policy, and Commitment) following the rules described in the “None” section above.
- **Endorsements – Options for Grouping on the CDF: Grouping Endorsements with the Options screen:** The following example demonstrates how the Same Line as Parent Policy option works; see options details above for a description of the other two options.
 - An order is created & the **Same Line As Parent Policy** endorsement grouping option is set on the Options screen:

Title - CDF Section Defaults

Owner's policy: Section H - Other Costs

All other title fees: Section C - Services Borrower Did Shop For

Group endorsements: Same Line As Parent Policy

Default to name: Agent

- A **Simultaneous Issue** policy is added.
 - The **Owner’s Policy** premium is sent to **H.01** (CDF Page 2) by default, as Section H – Other Costs is the selection in the **Owner’s policy** dropdown.

- The **Loan Policy** premium is sent to **C.01** (CDF Page 2) by default, as “Section C - Services Borrower Did Shop For” is the selection in the **All other title fees** dropdown.
- Two Endorsements are added to the **Owner's Policy**. They are **automatically** being sent to **H.01**, grouped with the **Parent Owner's policy**.
- Two Endorsements were added to the Loan Policy. They are **automatically** being sent to **C.01**, grouped with the **Parent Loan policy**.
- The **Title Policy Fees** and **Endorsements** are grouped together on CDF Page 1 in **Sections C & H**.
 - **Note:** An itemization can be seen on the CDF attachment page
- **Adjusting endorsements grouping** is simple, and can be done at any time from the options screen.

DEFAULT 'TO' NAME

Default 'to' name: Sets the default payee and name on the CDF for all title charges. Options include: **Agent** (default), **Underwriter**, or **Title Co**. The default payee is the contact assigned to receive funds in excess from the splits dialogs.

- **Splits & Grouped Disbursements Example:** The following example demonstrates how the splits and disbursements relate to the Default 'to' option:
 - By default, the **Default 'to' name** is set to **Agent**:

Title - CDF Section Defaults

Owner's policy: Section H - Other Costs

All other title fees: Section C - Services Borrower Did Shop For

Group endorsements: None

- A Loan/Mtg Policy and Owner's policy have been added to a **Simultaneous Issue** policy:

- The **Loan/Mtg Policy** details are accessible via the more button:

- The contact selected in the **To:** dropdown (i.e. – Underwriter) will receive the split specified by the multiplier percentage in the **Mult%** field. Here, that is the Underwriter, and the amount is \$80.00.
 - The name specified in the **Default 'to' name** gets the excess amount. In this example, that amount is \$720.00, and it is sent to 'A.'
- The **Owner's Policy** details are accessible via the more button:

- The contact selected in the **To:** dropdown (i.e. – Underwriter) will receive the split specified by the multiplier percentage in the **Mult%** field. Here, that is the Underwriter, and the amount is \$30.00.
 - The name specified in the **Default 'to' name** gets the excess amount. In this example, that amount is \$270.00, and it is sent to 'A.'
- The **Group Disbursements** screen shows the total of the split amounts between A and U:

- 990.00 to A
 - 110.00 to U
- The **CDF lines on Page 2** show the **total amounts of the title fees to A**, the **Default 'to' name**:

- These amounts are the **totals of the premiums** and **not the breakdown**:
- If the CDF Option is changed to **Title Co.:**

- Then the **Group Disbursement** screen will show the excess amount going to **T** instead of **A**:

- And the **DS** codes update on CDF Page 2 to show as **T** instead of **A**:

DOCUMENT OPTIONS

- **Disbursement Summary:** Use this option to include approval signature lines.
- **Print additional disbursements from broker's commission:** Checking this will print details of commission disbursements to a 3rd party on the CDF Addendum page; a new ReadyDoc has also been added which may be used if this option is not checked.
 - If this check box is NOT checked, then the details will print on the CDF exhibit.
 - There is no longer an option to specify particular lines.

Title Insurance

The new regulations require title insurance premiums to be disclosed in a specific way on the CDF for simultaneous issues. The loan policy premium amount disclosed on the Closing Disclosure form must reflect what the premium would be if it were not a simultaneous issue. The owner's policy premium must reflect the difference between that loan policy premium and the total cost of the two policies under a simultaneous issue. This calculation currently exists in GFE HUD files using the checkbox "Show full premium on 1104 for Simultaneous Issue" and in HUD files using the checkbox "Show full premium on 1109 for Simultaneous Issue". The ability to do the calculation was added to the CDF file using the checkbox "Show full loan premium on CDF."

CDF LINE DROPDOWNS ON THE TITLE SCREENS

There are several ways to populate the CDF lines on the title screens. Since lines sort alphabetically within a given section on the CDF, we have added CDF section defaults to the CDF Options screen. See the [CDF Options screen](#) for more

details. Although it is possible to group lines when configuring a template or lookup table, setting CDF section defaults is the recommended way for setting the CDF lines on the title screens.

TITLE CHARGE DESCRIPTION FIELDS

All line drop-downs for title charges now include a description field. CDF regulations also require that all title charge descriptions are prefaced by the text “Title –” add this prefix to the description by default:

The screenshot shows the 'Loan/Mtg Policy Information (2015030003.PFD)' window. It contains fields for Transaction Code, Remarks, Copy to Invoice Line, Line, Date Issued, Effective Date, Effective Time, Agent/Underwriter Split, Rate Table, Base Premium, Mult%, +/- Amount, Premium, and To. The 'Line' dropdown is set to 'Title - Lender's Title Insurance', which is highlighted with a red arrow.

PREMIUM CALCULATIONS

- **Policy Premium, Dates, & Numbers:**
 - A **Simultaneous Issue** section is available with a Simultaneous Issue policy type and appears underneath **New Policy Type in Policy Information:**

The screenshot shows the '2) Policy Premium, Dates, & Numbers (2015030003.PFD)' window. It contains fields for Underwriter/Policy Look-up Code, Underwriter/Policy Description, Underwriter's Case/File Number, New Policy Type (set to 'Simultaneous'), and Round Coverage Up to Next. The 'Simultaneous Issue' section is highlighted with a red box and a red arrow. It contains four checkboxes: 'Show Both Policy Numbers on Both Policies' (unchecked), 'Show full loan premium on CDF' (checked), 'Show full loan premium on Settlement Statement' (unchecked), and 'Show full loan premium on Invoice' (unchecked).

- **Show Both Policy Numbers on Both Policies** has been moved from the Owner's Policy area.
- **Show full loan premium on CDF** is the new name in the CDF file for the HUD-1 option **Show full premium on 1104/1109**. This option defaults to being checked. When checked:
 - The new premium amount fields will be activated: **Simultaneous Issue - Full Premium** and **Simultaneous Issue - Net Premium**. After being calculated with the new method, they will be sent to the CDF line instead of the traditional final premium amounts. **Note:** it is strongly recommended that setting the CDF line for title fees be managed via the [new dropdown lists](#) on the Options screen underneath the **Title – CDF section defaults**.
- **Show full loan premium on Settlement Statement** and **Show full Premium on Invoice** default to being unchecked.
 - **Show full premium on Settlement Statement:** This checkbox is activated when Show full premium on CDF is checked. When unchecked, the traditional premium calculations will appear on the Settlement Statements; when checked, the new premium amounts will appear on the Settlement Statements.
 - **Show full premium on invoice:** This checkbox is activated when Show full premium on CDF is checked. When unchecked, the traditional premium calculations will appear on the invoice; when checked, the new premium amounts will appear on the invoice.

- **Owner's Policy:**

- The **Net owner's premium** is now shown on screen as **Simultaneous Issue – Net Premium**.

- This new field is **only** active on a Simultaneous Issue policy and only when **Show full premium on CDF** is checked. The CDF Line dropdown & Description, which show in the dialog when the **More** button is clicked, always appear in a CDF file.
- A new owner's premium titled **SI net owner's premium** has been added.
 - The new **SI net owner's premium** is calculated using the new method:

Premium (Owner's)	(traditional owner's premium)
+ Premium (Loan/Mtg)	(traditional final loan premium amount)

Simultaneous Issue - Net Premium	

- **Loan Policy Premium:**

- The **Simultaneous Issue - Full Premium** is now shown on screen as **Simultaneous Issue – Full Premium**.

- This new field is **only** active on a Simultaneous Issue policy and **only** when **Show full premium on CDF** is checked. The CDF Line dropdown & Description, which show in the dialog when the **More** button is clicked, always appear in a CDF file.
- The **Full Premium** figures into the new **SI net owner's premium** calculation as follows:

Premium (Owner's)	(traditional owner's premium)
+ Premium (Loan/Mtg)	(traditional final loan premium amount)
- Simultaneous Issue - Full Premium	
Simultaneous Issue - Net Premium	

AGENT/UNDERWRITER SPLITS

Agent and Underwriter splits are not shown on the CDF like they were shown on the HUD-1. These splits work the same as they have on the HUD-1 if the resulting charge is paid to an Agent or Underwriter. The Agent & Underwriter grouped disbursement total takes into account splits. The following example shows how an additional title charge may be added, split, and disbursed to an Underwriter or Agent.

- An **Additional Title Charge** created:

Description	Amount	Policy	Datelss	EffDate	EffTime
1. Additional Title Charge 1	100.00	L			
2.					

- The **charge** is divided in half (50% multiplier) between the Underwriter and the contact in the Default 'to' name option, which is Agent by default) and sent to **C.01**:

LOAN, OWNER'S, & OTHER POLICY INFORMATION

These three dialogs work the same as they have with HUD-1 orders. The main difference with the CDF is that they now have the **CDF Line drop-down** and **description** options. Additionally, the **Show full premium on 1104/1109 for Simultaneous Issue** checkbox has been removed. This screenshot of the **Loan/Mtg Policy Information** dialog shows these changes:

ENDORSEMENTS & ADDITIONAL TITLE CHARGES

Endorsements and Additional Title Charges dialogs work the same as they have with HUD-1 orders. The main difference with the CDF is that they now have the Line drop-down option and description fields. To see how the default behavior is set, see the [CDF Options](#) section. This example shows an endorsement with these new items, but this is how an additional title charge would appear:

PRELIMINARY TITLE SEARCH

This screen works the same as it has with HUD-1 orders. The main difference with the CDF is that it now has a **CDF Line drop-down** and **description field**. **Note:** the field which displays “Title –” will append whatever the user enters in the **Type of Search** field above:

ADDITIONAL FEE

An **Additional Fee** option has been added to the loan and owner's policies. It may be used for items like Guaranty fees, State surcharges, etc.

- The **CDF Line** drop-down defaults from the [CDF Options screen](#).

- The **DS** line defaults using the **Default 'to' name** option on the [CDF Options screen](#). However, the DS code may be manually set if necessary.
- Once an **Additional Fee** is input, the description will populate & include the default **"Title –"** prefix; it may be manually edited if necessary:

DATA OVERLAY RULES

All data will overlay between the same file/overlay types; overlaying between different file types will transfer non-CDF, non-GFE, user-entered data. A few examples:

- **Same file type:**
 - **GFE → GFE:** All data will be overlaid.
 - **CDF → CDF:** All data will be overlaid.
- **Differing file types:**
 - **GFE → CDF:** HUD-specific and CDF-Specific data will be **IGNORED**; it **will not** overlay.
 - **All user-entered data** on non-HUD/non-CDF tabs **will** overlay.

Configuration Changes

The Closing Disclosure Form (CDF) requirements have affected some of the areas where the application is configured.

Preferences

MISCELLANEOUS

This section is found in ProForm under **Tools > Preferences > Miscellaneous**:

- A **directory path** has been added for the **Default CDF Template**
- A new **CDF** option has been added to this dialog; it is highly advised that users change this setting to **CDF** on **Aug 1, 2015**.

Lookup Tables

Lookup tables continue to be available via F9 and may be created for charges; no default CDF lookup tables are included with the application by default.

- **Export Type:** A new export option has been added to the **Import/Export Utility**:

- **Lines:** Lookup tables are not available for lines.
- **Charges:** Lookup tables are available (via F9) and may be created for charges.
 - If a lookup entry is created on a charge, it will be available for all charges.
 - When creating the lookup any charge-related fields may be used (I.e. – Reference, ToName, Address1, Address2, etc.)
 - A fieldname should be added **without** the charge number. (I.e. - The charge **Description** field would be **ChargeDescription** and **not** **Charge001Description**.)
 - In this example, a lookup table is being created on the **ChargeDescription** field:

- The lookup table is including the field for **ChargeDescription**:
