Summary of Changes

This release includes several notable changes for the Uniform Closing Dataset (UCD), a new option to round up title insurance premium calculations, and enhancements to the Pro1099 reports.

UCD Features

- Order Contacts:
 - Order Contact's role in the closing.
 - License details.
 - Identifier for an Order Contact's CDF payee type.
- CDF:
 - Fee types for each section have been updated to reflect the revised list of fee type values for each line.
 - An indicator on CDF charge line details that a fee has been included in APR.
 - An Optional Fee checkbox on CDF page 2 Section H charge lines.
 - An option to view the Fee Type column on CDF pages 2 and 3 charge line grids.

Title Premium Updates

- A new Round Up option has been added to the Rate Tables to calculate title insurance premiums.

(31.2) 8/22/2018

ProForm

Order Contacts

License Details Dialog

- On all contacts that have a License #, there is now a **More** button, and users can select this button to add license information for the company and for the contact person.

1) Settlement Agent, Underwriter (2018070008.PFD)

Settlement Agent

Settlement Agent Look-up Code: Marketing Rep:

Settlement Agent/Payee Name: CDF Payee Type:

License #: **More** NMLS#:

Contact Name:

License #: **More...** NMLS#:

Address:

- Users can add the Authority level, Authority name, State, and Date issued.
- When added, these fields are available to submit for UCD requirements. All of these fields are optional.

License Detail (2018070008.PFD)

Authority level:

Authority name:

State: Date: / /

CDF Payee Type:

- A new dropdown has been added for order contacts: CDF Payee Type. Users can select to include the CDF Payee Type, for example if the Settlement Agent is a Third Party Provider, or a Lender Affiliate.
 - When the contact is selected as the payee on the CDF, the appropriate payee type will be sent as part of a UCD submission.
 - This field does not impact disbursements and is only used for UCD purposes.

1) Settlement Agent, Underwriter (2018070008.PFD)

Loan Disclosures

Assumption
If you sell or transfer this property to another person, your lender

☐ will allow, under certain conditions, this person to assume this loan on the original terms.

☒ will not allow assumption of this loan on the original terms.

Escrow Account
For now, your loan

☐ will have an escrow ac to pay the property cos

Demand Feature
Your loan

☐ has a demand feature, which permits your lender to require early repayment of the loan. You should review your note for more details.

☒ does not have a demand feature.

Late Payment
If your payment is more than days late, your lender will charge a

late fee of

Escrow

Escrowed Property Costs over Year 1

Non-Escrowed Property Costs over Year 1

- Some late fees are not calculated, and must be entered manually, for example, Percent of Principal Balance and Percent of Delinquent Interest, and Flat Dollar Amount.
- The loan term Payment Frequency dropdown has a new option; **At Maturity**. This option defaults the Total Loan Years to 1, and calculates the total payment amount for the maturity of the loan.

10) Terms, Payment & ARM (2018080003.PFD)

Terms & Payment Information

Annual Interest Rate: % Spell: Rate Set Date: ARM Data

Payment frequency: **At Maturity** Plural: Singular:

Balloon after: ☐

Total Loan Years: Total Loan Months:

Total Number of Payments: Principal and Interest Payment:

Date of First Payment: First Payment Amount:

Date of Final Payment: Final Payment Amount:

- The Terms, Payment & ARM screen has a new field to calculate the Total term months of a loan. If the term is 30 years, the total term months will calculate to 360 months. Users can also change the total terms months, as in the example below, to 359 months:

10) Terms, Payment & ARM (2018080003.PFD)

Terms & Payment Information

Annual Interest Rate: 5.0000 % Spell: Five Rate Set Date: / / ARM Data

Payment frequency: Monthly Plural: months Singular: month

Balloon after:

Total Loan Years: 30 Total Loan Months: 359

Total Number of Payments: 360 Principal and Interest Payment: 18,788.76

- The total loan years and loan term will pull to Page 1 of the CDF.

Loan Information

Total Loan Years: 30 Loan Term: 29 yr. 11 mo.

Purpose: Refinance

Product:

- A new **Rate Set Date** is available on the Terms, Payment & ARM screen. Users can enter the date that the final interest rate was set. This field is used for UCD transmission purposes.

10) Terms, Payment & ARM (2018080003.PFD)

Terms & Payment Information

Annual Interest Rate: 5.0000 % Spell: Five Rate Set Date: / / ARM Data

Payment frequency: Monthly Plural: months Singular: month

Balloon after:

Total Loan Years: 30 Total Loan Months: 359

ARM Data

- A new **Buydown Summary** section has been added to the ARM Data dialog.

Mortgage Insurance Company

- Line F-02, Mortgage Insurance Premium has a new dropdown for **MI Company**.
 - If the company does not appear in the list, the user can select *Other*, and enter the name in the description field.
 - This field is for UCD transmittal purposes only.

CDF Page 4

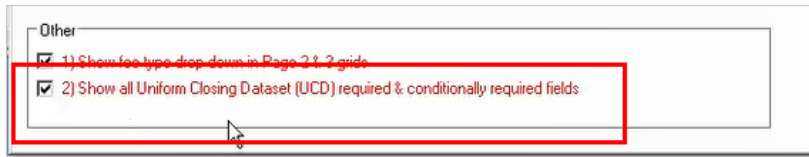

Step Adjustments

- The Index + Margin field has been changed to a dropdown.
 - The default is still Index + Margin, unless the product is a Step Rate.
 - A new Other option has been added to the index type field. When selected, a new other description field is available.
 - If the product is a Step Rate, the dropdown has a new option; **Interest Rate Adjustments**.
 - When selecting this option, the second field is enabled to allow the user to enter the number of adjustments for that step rate.

CDF Options

Show/Hide UCD Fields

- Users can choose to show or hide all UCD required fields using the checkbox on the CDF Options screen.

- When checked, the following UCD fields appear on applicable screens, and when unchecked, the UCD fields are hidden:
 - Contact's CDF Payee Type
 - Loan Total Const. Period Months
 - CDF Page 2 Include in APR checkbox
 - CDF Page 2 MI Company

Title Insurance

Title Premium Updates

- A new Round Up option has been added to the Rate Tables to calculate title insurance premiums. 408811
 - When calculating the title insurance premiums, some underwriters are requiring that when a computer charge is a fraction of a dollar, the charge should be rounded up to the next whole dollar.
 - When the new **Round Up to Next Whole Dollar** checkbox is checked, it will always round up to the next whole dollar, regardless of the fraction of the percent.

The new checkbox is greyed out when the *Number of Decimal Digits to Round Premium to* field is set to **2**:

Documents

ReadyDocs

- Commissions were appearing multiple times on the File Balance Sheet when the Listing and Selling Agents are the same company; *resolved*. 456770

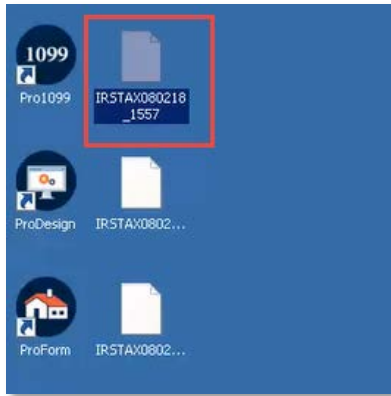

Word Merge

- When MS Word merge documents containing the MS Word "{FILLIN \ *MERGEFORMAT*}" string were rendered, there was incorrect handling of prompts embedded in the document; *resolved*. 403596

Pro1099

- The IRSTAX document filename has been updated to provide a date/time stamp to the filename. This update will provide details on when the file was created and prevent the file from being overwritten. 381592

In this example, the highlighted document shows the date and time the file was created, and the 2 documents below have a different time stamp, so the file cannot be overwritten.

- When searching for a Settlement Date, the end date field was auto-populating with the start date, which would return a result of 0 records; *resolved*. The default was removed, and now the end date is blank after entering the start date. 414955

- Previously a log file created when an error occurs in a Pro1099 mass import was saved to a SoftPro folder, but not all users had access to this location and this would cause the import to stall, and then caused an error message. Now the log file is saved to the user's local directory temp file. 418709
- The latest version of the 1099 Exemption Form has been added to the 1099 tree. The new version is the 2017 version, and has 6 True or False questions.

**CERTIFICATION FOR NO INFORMATION REPORTING
ON THE SALE OR EXCHANGE OF A PRINCIPAL RESIDENCE**

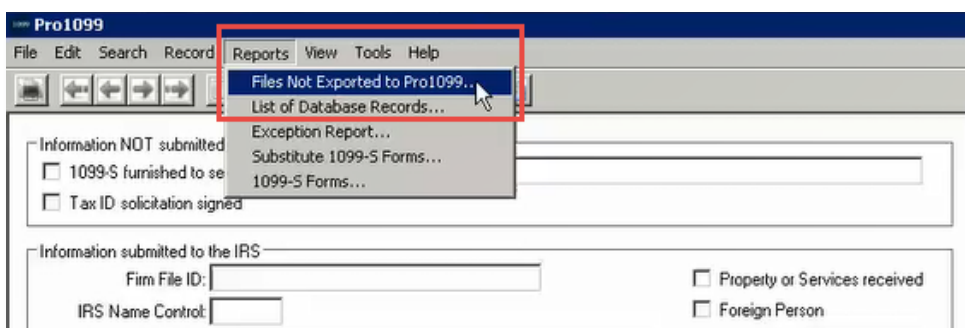

True False N/A (6) If my basis in the residence is determined by reference to the basis in the hands of a person
☐ ☐ ☐ who acquired the residence in an exchange to which section 1031 of the Internal Revenue Code
 applied, the exchange to which section 1031 applied occurred more than 5 years prior to the date
 I sold or exchanged the residence.

Part III. Seller Certification

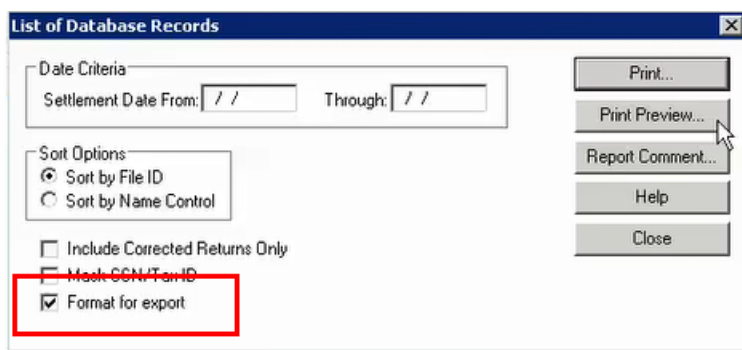

Under penalties of perjury, I certify that all the above information is true as of the end of the day of the sale or
 exchange.

- When batch printing 1099-S forms and Substitute 1099-S forms, corporations and exempt records are now excluded from the print job.

- When printing the 1099-S records onto the pre-printed IRS forms, the records were not aligning correctly; *resolved*. Note: The realignment adjustment is based on standard print drivers. When printing 3 1099 records, in some instances, only 2 of the 3 sections per page were printing; *resolved*.
- Suffixes to a name on a Substitute 1099-S form and 1099-S form now print with the suffix at the end of the name. Users must add a period after the suffix for this to print properly.
- Added the ProForm report “Files Not Exported to Pro1099” to Pro1099. No changes were made to the report itself; it was added to the top of the list of reports in the Pro1099 menu to allow users to review which items are missing and then run the “List of Database Records” report to view the items that were not imported. 467174

- The List of Database Records report has an improved format when exporting to Excel. A new checkbox option was added to format for export, and when the report is opened in Excel, the data is formatted into columns with column headers.

- *Property or Services Received* and *Foreign Person* were added to the List of Database Records report.

- The label for *Tax Credit* was renamed to *Buyer's Part of R/E Tax* to match the label on the actual record on the List of Database Records report.
